

White Pumped Electric Shower 9kW

Silent running pumped electric shower using new digital brushless motor technology

Silent running... so quiet that when the water is running you won't hear the pump

Integrated pump boosts the water pressure of low pressure gravity fed supplies

9.0kW rating and new free flowing components allow higher flow rates

Easy prime pump allows water flow without the need to operate the pump

Multiple entry points for pipe and cable, and ideal shape for replacing previous T90 models

Large shower head with 5 spray patterns and rub clean nozzles

2 year guarantee for peace of mind

Alternative Satin/Chrome finish

Satin/Chrome Pumped Electric Shower 9kW

Now an even better alternative to a mixer shower on a gravity system, able to operate at lower head gravity and typically offering better flow rates
